PRESIDENT'S MESSAGE

The Paris Agricultural Society is pleased to present the 2021 Paris Fair Prize Book.

This year we look forward to our 163rd Paris Fair after not being able to have an in-person Fair in 2020, the first time I'm told since war-time. It has been a challenge to prepare this year due to the changing health and safety precautions required to keep everyone safe.

In preparation for this year's event we encourage you, to take time to review the classes available for entry - anyone can enter. The wide variety combined with the strong support from our exhibitors continues to make the Fair a successful exhibition. From crafts to plants to livestock, there is something for everyone.

If not for the continued support of our many sponsors and donors, the classes at the Fair would not be possible. Thank you, it is greatly appreciated.

The members of the PAS as well as the Board of Directors and the many volunteers provide ongoing guidance and support. It is very rewarding as President to see the coordination of all involved when the gates open for the five days of the Fair.

Welcome and best of luck to all exhibitors, we look forward to seeing you at the Fair.

Respectfully,

Ross Miller, 2021 Paris Agricultural Society President

HOMECRAFT PRESIDENT'S MESSAGE

The Paris Fair is truly "where friends meet" and we look forward to welcoming you back for the 163rd Paris Fair.

This prize book outlines all of our competitions for this year's fair. Be sure to look through the book early so you can incorporate our classes into your activities over the next few months before the fair.

Whether it is choosing specific plants for your garden, taking a certain picture, working on your hobbies and crafts, or training your animals, we would love to have you take part in our competitions. If you have any questions please contact us. We will get you in touch with the committee chair for the area you are interested in.

Beyond our competitions and while things may still be different due to the COVID-19 pandemic we look forward to bringing a fun filled Paris Fair back to the community.

As you may be aware it takes a small army to put this fair on and host events through out the year. Special thanks to all of those who make this fair and agricultural society run so smooth. There are sponsors, community groups and especially our volunteers! If you are interested in giving back to the community and joining a great group of people, please consider volunteering with the Paris Agricultural Society. Whether you have 3 hours a year or 3 hours a month available to contribute we look forward to you sharing your time with us and us sharing our experiences with you.

See you at the Fair!

Valerie Stone, 2021 Paris Agricultural Society Homecraft President

CODE OF ETHICS FOR DAIRY SHOWS

While presenting a positive image to spectators, the following supports good animal husbandry both at home and at a show.

PART I

The following practices or procedures are considered unacceptable and defined as unethical in the show ring of registered dairy cattle:

1. misrepresenting the age of the animal for the class in which it is shown
2. filling an animal unnaturally with liquid (tubing)
3. balancing the udder by any means other than by leaving naturally produced milk in any or all quarters
4. treating the udder, internally or externally with an irritant, counterirritant, or any other substance to temporarily improve conformation or produce unnatural animation
5. administering epidural anesthesia (blocking tails)
6. performing surgery of any kind to change the natural contour of appearance of the animal's body, hide or hair. Not included is the removal of warts, teats and horns, clipping and dressing of hair and trimming of hooves.
7. inserting foreign material/articles under the skin, into the topline or on the feet
8. roping udders
9. criticizing or interfering with the judge, show management or other exhibitors while in the show ring or other conduct detrimental to the breed or show

PART II

The provisions of this part apply to entries of a breed regulated by a breed association which has adopted this part.

1. If intended for use in contravention of the Code of Ethics, no exhibitor and no agent, employee or other person acting on behalf of an exhibitor, shall have in his or her possession or control any hyodermic syringe, needle or other device, swabs, cloths, or other material, or any medicine, preparation or substance, whether in liquid or any other form.
2. Exhibitors will not be allowed to wrap hocks or drain fluid from hocks at a show unless authorized by a veterinarian at the show.
3. All entries and the personal property of all exhibitors, their servants and agents and persons acting on behalf of exhibitors, are subject to inspection by inspectors authorized by a show. All such persons shall co-operate with the inspectors and shall provide all such information in connection with such inspections and shall provide access to the animal and all information reasonably required by inspectors in connection with such inspections and shall provide, if so requested, samples of urine and blood suitable for analysis. Exhibitors shall also remove any udder supports, blankets or other objects limiting the ability of the inspector to undertake a thorough inspection. In particular, the inspectors shall be informed, in advance, of the nature of any medicine, treatment or substance administered to any entry and the reasons therefor. Inspections under this paragraph may be carried out at any time while the animal is at the show and elsewhere in the period ending 30 days after the termination of the show between the hours of 6:00 a.m. and 8:00 p.m.
4. Any inspector may, at any time, require the delivery to him of any hypodermic syringe, needle or other device, swabs, cloths or other material, or samples or any medicine, preparation or substance, whether in liquid or other form, in the possession or control of the exhibitor, his servants, agents or persons acting on behalf of the exhibitor for the purposes of laboratory analysis.
5. (A) Subject to the provisions of subparagraph (B), the following entries are disqualified and shall not participate further in the show in which the entry is disqualified.

(i) Any animal determined by an inspector, who is also a veterinarian, to have an udder manifesting any of the following: localized swelling, oedema, erythema, sensitivity, reddening, firmness, warmth or exfoliation of the skin, but excluding general oedema associated with parturition or mastitis, or a sore in the area where the large blood vessels enter the udder.

(ii) Any animal entered by an exhibitor whose servants, agents or persons acting on his behalf, fails to co-operate in the inspection provided for under paragraphs 3 or 4.

(B) The inspector's determination pursuant to subparagraph (A)(i) is subject to an appeal by the exhibitor to the appeal committee appointed by the show for the purpose. Any such appeal must be made by notice in writing delivered to the show management within 1 hour of notification of the inspector's determination. In keeping with the basic philosophy of the fair/exhibition/show committee, ethics are an individual responsibility.
