October 13, 2021

On behalf of the Board of Directors for the Paris Agricultural Society, I am pleased to advise that the government is cautiously lifting capacity limits in select settings where proof of vaccination requirements provide an added layer of protection to Ontarians.

Effective Saturday, October 9, 2021, at 12:01 a.m., capacity limits will be lifted to allow 100 per cent capacity at meeting and event spaces. This is welcome news to our Society as we strive to offer safe rental facilities to businesses, not for profit organizations and for private functions.

**Under the new guidelines, capacity for our main buildings is now at 60 in the Community Room, 400 in the Exhibition Centre and 300 in the Special Event Building (these numbers are fluid, depending on the number of tables and chairs required in the room/building).**

Public health and workplace safety measures continue to remain in effect for these settings. This includes the need for proof of vaccination, wearing face coverings, screening, and the collecting of patron information to support contact tracing. We have a QR code available for use by rental parties to assist with the efficient collection of tracing information. PAS contracts will continue to include an addendum "Re-Opening Procedure after Pandemic and Rental Party Expectations" which clearly outlines the above noted expectations and responsibilities.

Should you have any further questions or wish to proceed with a rental of our facility, please do not hesitate to contact the office.

Thank you to all for your continued support and efforts to keep our community safe.
